The President's Report

As I write this report Sydney is now into the 3rd month of lockdowns plus more recently the rest of NSW due to the resurgence of COVID 19 in the form of the Delta Strain.

This has caused the postponement of our AGM that was scheduled for late July and has recently been postponed again until a date to be advised, hopefully late October.

With the current situation in mind, I hope that all our members and their families, wherever they may be, are keeping safe and well.

Apart from the interruption of COVID, the year has flown by very quickly and up until the current lockdown here in Sydney we were able to enjoy a pretty much normal year.

The committee met unrestricted by events throughout the year, and it has again been my privilege to have served you as President for the past 14 months.

I would like to thank the Committee for its hard work and support over the last 14 months and the support of our members.

A point to note here is that the Association was formed 35 years ago on 28 May 1986 and John Balfour (JB) has held the position of Secretary uninterrupted since inception. Thanks, JB for all the years of hard work and support.

At the time of writing our membership stands at 220 members (not including honorary members) and that number has changed very little over the past couple of years with some new members plus the passing of other long-term members.

A troubling issue for us as an Association is that the membership is not getting any younger. The average age of members is 69 with approximately 67% of our members in the 60-89 age group.

The 40 to 60 age group comprises only 23% of our membership so there are a lot of gunners, either still serving or who have left the Regiment, who can be seen as prospective members.

We would love to find some of these "missing" people and try and recruit them into the Association. If you know of anybody or have some mates you served with who are not members, please let them know we would love to hear from them.

The Facebook Group is in its 5th year with 63 members, and this continues to be a source of information, photos, anecdotes, birthday updates and difficult quizzes (thanks Jim Nash) for those members.

A quick look at our major activities, events, and achievements over the past 14 months:

- Our 34th Annual Reunion held on 13 November 2020 at Forestville RSL Club was attended by 34 members and guests including our guest speakers LT COL David Carew, CO 9 Regiment and RSM WO1 Reg Grundell who between them gave an update on the Regiment's activities and the direction that Artillery is heading in the not-so-distant future.
- The Association's annual ANZAC Lunch held at Chatswood RSL on Sunday 10 April 2021 attended by 18 members.
- The Chatswood RSL Club's ANZAC Lunch held on Thursday 22 April 2021 which was attended by 3 Committee members plus our Patron COL John Fairless. Thanks again to Barney Flanagan who facilitates this invitation to the Association every year.
- The ANZAC Day March which saw 40 members march. Due to COVID restrictions we were unable to have Cadet Banner Bearers, however we were fortunate to have the Banner carried by 7 Bty soldiers.

On a wider note, August 1 saw the celebration of the 150th Anniversary of the Royal Australian Regiment of Australian Artillery.

As gunners, we are proud of our Regiment, history, heritage, and service to our country over the past 150 years.

Regrettably celebrations were muted due to COVID, and the Anniversary Salute in NSW, QLD & Victoria had to be cancelled. Salutes did take place in other states that weren't affected by lockdowns, however all of the other programmed activities have been cancelled/postponed.

At last November's Reunion dinner, we presented the annual Soldier's Award for 2020.

This award has been around in one form or another since 1990 and is decided by the Battery Commander after recommendations from the Battery Troop Commanders.

Congratulations went to GNR Callan Gato of 113 TP Adamstown with the runner up, GNR Toby Spring of 28 TP Dee Why. Well done to both soldiers. The winner received a certificate for a free weekend at the Army Resort Bulwarra, Terrigal.

In last year's Report I mentioned that we were close to completion of the new website for the Association but due to a couple of difficult technical issues holding up

the completion the Committee decided to hand over the existing work to a professional web developer to finish off the job.

We have now had discussions with a suitable web developer regarding the work required, however, due to the current COVID lockdown the project is on hold until restrictions are eased.

Once completed the Association will have a modern, up to date website interface which will be easy to navigate, contain all the information from the old website and, importantly, will not require any major tech skills to keep updated.

Finally, I would encourage you to attend our next Annual Reunion at Chatswood RSL Club on Friday 12 November and enjoy a meal and a few drinks with old friends.

UBIQUE

FROM THE CO's DESK

In 2021, Army took major steps forward in the planning of new capability and force structures for the RAA that would see artillery come to the forefront of power within the Army and ADF in the next 10-15 years. The Royal Australian Artillery through the Artillery Modernisation Program will deliver multiple projects across a range of equipment and system improvements over the next decade. These projects include Long range missile systems, protected mobile fires, National Advanced Surface-To-Air Missile System, extended range ammunition and next generation digital terminal control systems. These and other projects like Land Based Maritime Strike will be game changers which will strengthen the joint force and provide Government options in order to Shape, Deter and Respond to potential aggression. Further announcements about these plans are anticipated in early 2022.

Throughout 2021, the Royal Australian Artillery made preparations to celebrate the 150th anniversary of its foundation. On the 1st August regular and reserve artillery batteries across Australia marked the occasion by conducting a series of events including a Nationwide Regimental fireplan. Batteries of 9 Regiment took an active role in fulfilling their allocation on the fireplan schedule with a timely response from the guns. Unfortunately due to COVID a lot of

activities had to be cancelled, especially in NSW, VIC and SE QLD.

9 Regiment continues to build upon its foundation as the artillery formation of the 2nd Division. This year will see the F2 mortar system being replaced by the M252A1 Lightweight mortar system supported by the M32A1 Lightweight Handheld Mortar Ballistic Computer with Batteries currently running conversion courses during September. This new platform is lighter and has an improved range whilst being more reliable with fewer components. The 81mm platform continues to represent a viable scalable delivery system for the RAA light artillery batteries. 9 Regiment will also secure a future role in foundation warfighting alongside the full time Regiments, as Army looks to maximise the Total Workforce System (use Part-Time personnel) and introduce ARes capability bricks into all new RAA equipment's being introduced across the Brigades.

Meanwhile, on behalf of the Commander 2nd Division, 9 Regiment has taken the lead for the responsibility for the development and maintenance of UAS governance within the Division. This establishes 9 Regiment as the Centre of Excellence of Unmanned Aerial Systems (UAS) and is in keeping with the tradition of the RAA's role in providing surveillance and target acquisition.

Also during 2020/2021, 9 Regiment has continued to integrate Small UAS and NANO Unmanned Aerial Systems into warfighting training and during domestic operations. The Regiment remains postured to support the High Risk Weather Season (Oct to Mar) events as well as emerging contingency operations with our UAS capability as required.

Soldier personal carriage equipment upgrades are underway, improving the baseline equipment carriage of all soldiers, enhancing the professional mastery and leading to more efficient and combat ready soldiers.

Against the backdrop of the COVID-19 global pandemic, the 2nd Division has furthered its position as a strategic and increasingly significant stakeholder in the security of Australia's domestic and regional interests. 9 Regiment RAA continued to build upon its role within the 2nd Division with commitments to Operation Flood Assist in NSW and Operation COVID 19 Assist in NSW, QLD and Victoria.

Following 6 months of collective training activity during the second half of 2020, 7 Battery sought to consolidate its strength and experience during 2021 by undertaking a program of training aimed at closing individual training gaps and improving its readiness for domestic operations.

In February 2021, 7 Battery responded to Operation Flood Assist, providing an Unmanned Aerial System team to support the Joint Task Force HQ by conducting aerial search and aerial surveillance tasks of flood affected areas in northern NSW.

During the next 6 months, 7 Battery relocated its HQ and 25 Troop from the Erina depot to the Pymble depot to strengthen the Battery's Sydney base against a more sustainable posture. This has provided the Sydney based 25 and 28 troops access to a purpose built forward observer training facility located in the Pymble depot.

7 Battery's routine within the 2020/2021 training year has included the following activities:

- Conducted a live fire exercise in support of the School of Infantry ROBC Officer Training (Singleton in June 2020)
- Exercised Small Arms (EF88 and 9mm at Holsworthy Range in July 2020)
- Supported the Australia Day Gun Salute (at Government House in January 2021)
- Deployed personnel on Operations in the SW pacific (January to July 2021)
- Deployed 4 personnel on Operation Covid-19 Assist securing hotel quarantine, ports and other vital infrastructure. (January to July 2021)

- Supported Officer Cadet Training Block 3 & 4 (Holsworthy in April, Singleton in May 2021)
- Conducted Army Combative training (at Randwick in May 2021)
- Conducted a mortar live fire practice in support of the School of Infantry Officer Training (Singleton in September 2021)
- Exercised using HE small arms weapons (at Singleton in June 2021)
- Fired a 21 gun salute (at Mrs Macquarie's Chair in June 2021)
- Delivered UAS currency and training activities (within depots from Feb-Sep 2021)

Support to domestic operations will remain the priority for the Battery although the Battery will maintain a high state of readiness so that it can meet any call for personnel especially during the upcoming high risk weather season.

Officer movements saw the departure of LT Matthew Bojanic for 23 Battery in January 2021 whilst LT Hugo Laithwaite marched-in from RMC Duntroon in June 2021. The 2021 Calendar year represents the final year of a four year posting of the Battery Commander Major Marcus Jones who will transition to SO2 Recruiting at HQ 8 BDE at Dundas commencing January 2022.

Officers and soldiers of 7 Battery acknowledge the support of the 7 Field Regiment Association and thank the committee members for their ongoing support.

7 Battery identifies the Battery's lineage lies with the 7th Field Regiment and its distant lineage with the 7th Field Artillery Brigade.

I will be moving on to a new posting as SO1 Culture & Diversity in AHQ next year with LTCOL Phillip Wong taking up the reigns as CO 9 Regt RAA.

**SGT Richard (Dick) Capel,
7 Field Artillery Brigade WWI**

Of the 8 Capel brothers and cousins who served, 6 came home and 2 of the brothers died in France. Their homes were in Roseville, Sydney, Bingara and Barraba in the New England district.

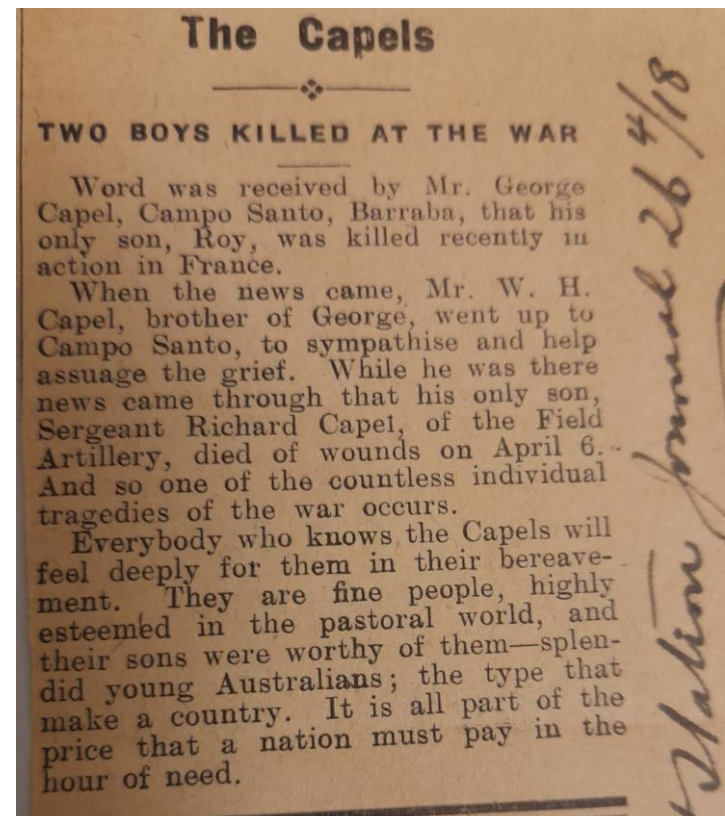

Richard (Dick) Capel was enlisted on 4 Jan 1916 at Victoria Barracks and later posted to 28 Bty, 7 FAB. He served in France with 28 Bty and then 107 Howitzer Bty, 7 FAB. Dick was wounded (GSW, arm and chest) and sent to England for treatment on 19 Sep 1917. He had been promoted to Sgt 3 weeks earlier. After recovery he went back to 7 FAB on 29 Jan 1918. He was wounded again and died at a forward dressing station of 11 Australian Field Ambulance on 6 Apr 1918.

The letters in his file continue the story. The Army sent his Dad a letter dated 17 Apr 1918 saying he was wounded. He had died 10 days

earlier. Another letter from a fellow gunner told his parents what happened. It appeared he was to return to England to do an Officer Course. Before leaving, he was called to an adjoining village to be interviewed by the CO 7 FAB. Dick was returning to his Bty when a bomb was dropped by an aircraft on the road close by and he was hit by shrapnel.

In a letter to his Mother, Dick said he met a man he knew at the Brigade base. He knew George Fenn from before the war, when he worked for him at Newstead Station. (Site of the painting "Golden Fleece" by Tom Roberts 1894) Dick asked his Mother to check on George Fenn's wife and children as they were struggling. Dick said to get them anything they needed and to charge it to his account. This letter was sent 2 months before he died. His family wanted to know where he was buried and there are letters from other Gunners explaining the location. There was also the official War Graves info.

Members of the family visited the grave in 1922.

ENGINEERS

Question. What is the difference between a Mechanical Engineer and a Civil Engineer?

Answer. A Mechanical Engineer builds Weapons; A Civil Engineer builds Targets.
