

7th F.A.B. RE-UNION CLUB.

The news of the forming of the 7th F.A.B. re-union Club in Sydney, by Eric Harding, Harry Stitt and also our esteemed original organiser, Lt. Col. Pearce V.D. and other returned pals, is viewed with a great amount of satisfaction and appreciation, by the Members of the Brigade, who have shown such comradeship as possessed by the 7th.

However, there is a certain field for controversy as to the best ways and means of making this Club a distinct success. For instance, it would hardly do to have it a permanently situated affair in the City, as there are so many members of the 7th, who come from the Never Never country, and then again, to be considered are the GUMSUCKERS, CROWEATERS, GROPERLANDERS, BANANALANDERS, not forgetting those from "TATT'S" land.

A better scheme or suggestion would be to have an annual re-union, say at Easter time, for a period of a month, the Easter Races and Royal Sydney Show would have an added attraction for visitors.

It could be arranged to have a meeting house, for that period, by the rental of a huge flat or flats, in some central part of the City, where we could meet and make appointments any old time.

It would possess great drawing powers, when they knew the possibility of meeting so many old comrades of fighting days. One can imagine the social side, when "Driver" Reginald do Josslyn, Bank-Manager, grips "Gunner" Bill Bowyang, the Bricklayer by the hand, with a hail-fellow, well met spirit, that was so characteristic of by-gone days, or the change when "Gunner" Bill Groggins, who owns half Bananaland, shakes hands with Captain Fitzhugh who was clerking "Avant la Guerre".

Dinners, banquets and theatre parties could be arranged and so make this month, a re-union, something to be looked forward to, which would keep ever-green the sterling friendships found and formed between men, who have fought and suffered hardships, together, throughout the great world war.
